Re: Letter of recommendation for Britany Carter

Dear Sir/Madam,

I am a User Experience Designer freelancer. I am an adjunct instructor at Arizona State University, and adjunct assistant professor at the Milwaukee School of Engineering. I am pleased to provide a letter of reference for Britany Carter for her application for the position of web designer. Britany recently graduated from Graphic Information Technology program at ASU. She was recently in my Senior Design course, where she scored an A grade. This was the first course that Britany took with me. One of the things that I have found quite impressive about her is her tenacity, time management, and organization. The senior design course is fast paced where students are expected to identify a design problem, define scope of the project and come up with a final solution that is viable and tested. Britany developed brand identity and website for Arsai Japanese Fusion Bakery. She was very thorough in her work and created designs that were effective, easy to follow and intuitive.

I believe that Britany has a good work ethic, and she is quite dedicated. I am sure that she will apply the same dedication as web designer. I recommend her without any reservation.

Please reach out to me if you need more information.

Sincerely,

Sheetal Sohoni

To whom it may concern:

Ms. Brittany Carter was an online student of mine for GIT417 and GIT418. Both of these courses covered JavaScript concepts for user interactivity in web design with the following as major topics:

- Brief history of the development of web browser technology
- How to set up JavaScript within HTML
- Functions, Data types, and Operators
- Arrays and control of flow statements
- Debugging and Error Handling
- Working with the Document Object Model
- Enhancing and Validating forms
- Using Object-oriented JavaScript
- Manipulating Data in Strings and Arrays
- Managing State information and Security
- Programming for Touchscreens and Mobile Devices
- Updating Web pages with Ajax
- Introduction to jQuery

Ms. Carter earned an A and A+ in GIT417 and GIT418, respectively. She was an exemplary online student.

I would be happy to recommend her for any position as a web developer. You are more than welcome to contact me using the information below my signature:

Sincerely,
