Polivy team (Inzio client)
A special Kudos from the client) the to our incredible dev working on the personalized pages effort. Genentech said they truly value the partnership, good attitude, and creative thinking. They were amazed at the amount completed and accuracy, especially with what they had to work with. That saved the client a lot of time and they were very pleased. Britt absolutely knocked it out of the park!! I looked at the pages after Britt let me know they were done and ready and was absolutely FLOORED at how amazing they looked! So thank you, this is going to save us about 10 days of dev time which is a HUGE win!

Sr Project Manger Erica Dalpini
This long overdue but Britt deserves all the shout outs! She's been such an amazing asset to the team. She's so meticulous with her work, she's incredibly responsive to requests, she's always willing and able to jump on any ticket and even in the craziest of times she always delivers on time or way ahead of schedule. We're so lucky to have to her!

Sr. Director, Program Management Krysta Jordan Beyer
It has truly been a pleasure working with you too! You are a fantastic developer and person and I'm so glad to have had the opportunity to cross paths with you over the last year working on NNI together. I wish you nothing but the best as well, and I hope you continue to thrive here at Inizio – you are crushing it!

Sr Project Manager Diana Alarcon, CSM
I have no idea what I would've done without you on this one. Every question (no matter how odd), every huddle, every wild AOR request, learning together, and just always being available for absolutely anything. I don't know how many times I pinged you but I appreciate you always being positive and explaining things to me. Your patience, understanding, and great work on the Apaches and fast Hot Fixes have been appreciated so much. Also styling from the get go with intricate ISI stylings never done before. Thank you for always jumping on these at every step of the way.
